PRESENTATION

The **European Big Data Value Forum (EBDVF)** is the main event of the European Big Data and Data-Driven AI Research and Innovation community.

In 2017 the Big Data Value Association (BDVA) and the European Commission (DG CNECT) joined forces to create this as a fusion of the former EDF (European Data Forum) and the BDVA Summit.

In its **first edition** in 2017 the EBDVF was held in Versailles, France, and it was co-organised by the BDVA, the European Commission and INRIA, a local organizing BDVA member company. 900 participants and 40+ sponsors joined the events focused in **"Trusted AI on Smart Industry"**.

Last year the EBDVF was an official event of the Austrian Presidency of the Council of the EU and it was organised by the Federal Ministry of Transport, Innovation and Technology in cooperation with BDVA and the European Commission. The theme of the event was **"Data Driven AI for the future"**.

This year **EBDVF2019** is organized by **BDVA**, in collaboration with the **European Commission** and **VTT** as the main local organizer. The event is estimated to gather approx. 700 industry professionals, business developers, researchers, and policymakers. The organizing committee of this event includes, in addition to BDVA, the EC and VTT, multiple Finnish industrial and Innovation and Research players and other research institutions.

WHY TO BECOME A SPONSOR?

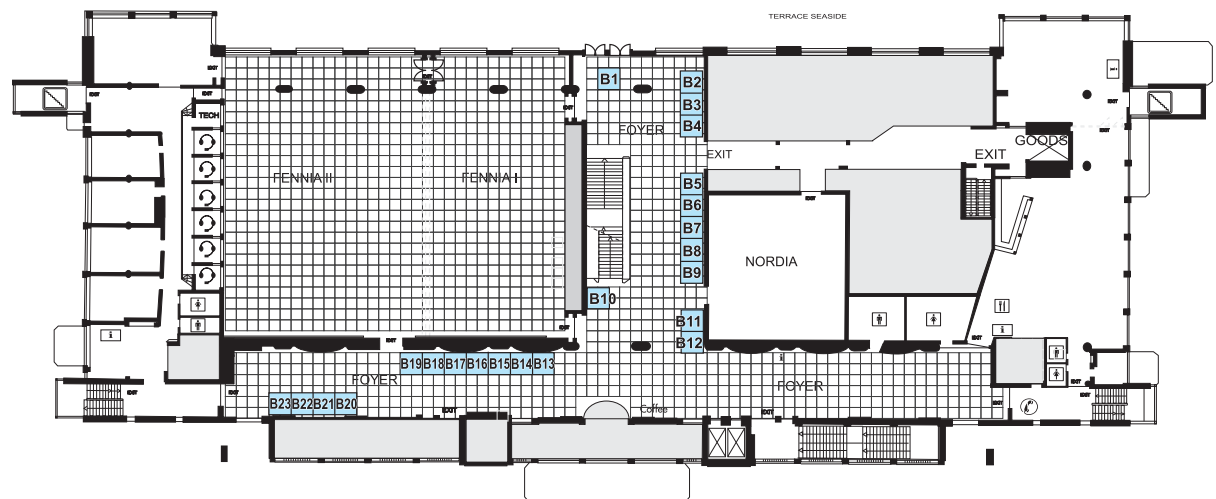

EBDVF will take place this year in Scandic Marina Congress Center in Helsinki. This venue is located right in the heart of the city next to the waterfront, just a couple of minutes walk from Kauppatori market square and a short walk from Helsinki railway station.

Scandic Marina Congress Center is an exceptional venue for conference. The splendid sea view towards the Helsinki archipelago creates an extra value.
